IS LONGEST AND MOST BITTER

IN EUROPE.

GERMANS REPULSED IN ATTACKS

Austrians Continue to Make Gains
in Invasion of Northern
Italy.

(Associated Press)
The British government has advised Ambassador Page that Jeremiah Lynch, the naturalized American who was convicted of complicity in the Dublin rebellion, was originally sentenced to death, but that sentence was commuted to ten years' imprisonment. There is nothing to indicate whether the representations of President Wilson resulted in the commutation.

Austrians Carry Ridge
Austro-Hungarian forces have carried the peak of Armentara ridge, the scene of some of the heaviest fighting in the new Austrian offensive, Vienna says. More than 3,000 Italians were captured as of Sunday, also 25 cannon and eight machine guns.

Battle Three Months.
The battle of Verdun, the longest and most bitter individual struggle of the war, enters its fourth month today. Last night, a Paris says, the Germans abandoned several blockhouses in Avoncourt wood. The struggle west of Dead Man's hill is terrific. In the Hautmont quarries, east of the Meuse, the Germans have been repulsed with heavy losses.

The Austrians are said to have withdrawn 50,000 troops from Albania, possibly to push the offensive in Italy, where they have captured several villages.

British Defeated.
Constantinople says British forces in the Province of Darfur, Sudan, have been defeated by the rebellious tribesmen.

To Sue Correspondent.
Seymour Conger, Associated Press correspondent in Berlin, will begin libel action against Edwin Emerson, an American correspondent there, based on an article in the Continental Times, published in the English language, in which Emerson intimates that Conger and Ambassador Gerard are responsible for the "betrayal of Roger Casement to the British."

Berlin, May 22.—More than 1,300 French, including thirty-one officers, in addition to sixteen machine guns and eight cannon, were captured in a new German assault on the Verdun front, in the region of Dead Man Hill, the war office announces.

This statement says the German lines were advanced on the south and southwest slopes of the hill. The communication follows:

"On the south and southwest slopes of Dead Man Hill our lines were advanced after effective artillery preparation. Thirty-one officers and 1,315 men were taken prisoners, and in addition to other war material, sixteen machine guns and eight cannon were captured. Minor counterattacks by the enemy were abortive.

"It has been ascertained that the French attack with hand grenades in Caillotte wood on the night of May 20 was repulsed. There was no infantry action at this point Sunday.

"The firing on both sides at times was very violent. Minor expeditions west of Beaumont and south of Gondrexon were successful.

Four Aeroplanes Felled.
"Near Ostend (Belgium) a hostile aeroplane was brought down by the fire of our anti-aircraft guns and fell into the sea. Four other machines were shot down in aerial encounters. Two of them fell within our lines, one near Lorgies, north of La Basse, and the other near Chateau Salins. The remaining two fell within the enemy's lines."

The crowd was very large and the dance floor was crowded to capacity during the entire evening, music being furnished by the Marquette orchestra of nine pieces.

It is understood that the township will issue \$50,000 worth of bonds to facilitate the building of the school.

MISS PHILLIPS OF DIXON DIED SUNDAY COLORADO SPRINGS

JEANETTA PHILLIPS, DAUGHTER OF W. W. PHILLIPS, PASSED AWAY.

FORMERLY LIVED IN COMPTON

Member of Dixon High School and Popular Young Lady Succumbs—Arrive Here Tomorrow.

Dixon will be shocked to learn of the death of Miss Jeanetta Phillips, who passed away Sunday morning at 8:40 o'clock in Colorado Springs, Colo., where she was taken a few weeks ago for treatment for tuberculosis. Miss Phillips was a popular young lady, a member of Dixon high school. She was the 19-year old daughter of Mr. and Mrs. W. W. Phillips, 606 Peoria avenue. Her death brings sorrow to hundreds of close friends and the sympathy of the community goes out to the grief-stricken parents. Sheriff Robt. Phillips, who is a cousin of W. W. Phillips, received a wire from the father last evening, telling of the young lady's death and stating that they would arrive in Dixon on the 6:10 train from the west on Tuesday evening. Announcement of funeral arrangements will be made later.

Born at Compton.

Miss Jeanetta Phillips was born in Compton, Ill., and lived there until three years ago. She received her grade school education at Compton and three years ago she moved to Dixon with her father and mother and entered Dixon high school. She was taken out of school during the past winter because of her failing health and a few weeks ago it was found necessary for her to take a hurried trip to Colorado, where it was believed the high altitude might give her relief.

Nearly Two Years.

Miss Phillips would have been 20 years old on Saturday, the 27th of this month. Her death is very sad indeed. She was a beautiful, talented girl with a sweet and lovable character and a most winning personality. Death has taken tragedy into the Phillips home and the hundreds of young friends of Miss Phillips will also feel great loss.

ZOELLER WILL MOVE TO NEW BUILDING

HAS LEASED ASCHENBRENNER STORE ROOM FOR HIS GROWING BUSINESS

HAS BEEN VERY SUCCESSFUL

Edward Zoeller, proprietor of the 5, 10 and 25 cent store in the Barwell building on First street has leased the Aschenbrenner store room on First street between Hennepin and Peoria avenues, and he will move his establishment there in a short time. The new store room is one of the best in the city, is thoroughly fire proof and will afford an excellent location for the enlarged stock which the proprietor will add. Mr. Zoeller also expects to use the basement for a bargain room, and when his plans are carried out he will have one of the most complete stores of its kind in northern Illinois.

His success in the novelty business has been remarkable and is an example of what a young man can accomplish by determination and close attention to business. Six years ago he started a very modest store in Dementown. In three years his business had grown to such an extent that larger quarters were necessary, and accordingly, he moved to the downtown location three years ago. His stock is one of the most complete in this part of the state now and the fact that larger quarters are again necessary is proof of his success.

AFTER NEW RECORD FRISCO TO NEW YORK

BOBBY HAMMOND PASSED THRU DIXON SUNDAY P. M., EASTBOUND.

TRYING FOR EIGHT DAY MARK

Bent on establishing a new record from San Francisco to New York, Bobby Hammond passed thru Dixon Sunday, running ahead of his schedule outlined to take him over the route in about eight days' time. He left San Francisco at 12:01 a. m. May 17th, being started by A. A. A. officials and carrying a sack of United States mail.

Hammond is well known in connection with previous fast time continental tours, being a pilot in a car that established a record six years ago and at present holds the honor of the fastest transcontinental trip in a cyclecar. He was one of the drivers in the New York to Paris race of several years ago and has made a tour of the world on a motorcycle. As an endurance driver he holds a record of three days and two nights without leaving his seat.

Elaborate arrangements were made for this trip and Hammond has permits from the governor of practically every state he will cross to disregard speed limits in open country, and city officials at many points have agreed to hold the road open for him about the time he is due.

Transcontinental records at present are rather indefinite, because of the fact that starts are made from many different points in California, giving trips of varying mileage. But Hammond has selected the Lincoln Highway as his course, and as no speed record over this route has yet been hung up, his mark will be an opener for the road. This driving will take him thru Sacramento, Reno, Salt Lake, Cheyenne, Omaha, Hammond, Canton, Pittsburgh and Philadelphia to New York.

Foreign colonists near Esperanza report increasing incursions of the Yaquis on their properties and despair of being able to save their small crops.

Bandits Menace Border.

Marathon, May 22.—Two bands of Mexican bandits were reported in the vicinity of Terlingua and Lajitas, fifty miles west of Boquilla, according to reliable information received here. The news was brought here by an American, who said he had it from Mexicans in his employ. According to their story the bandits promised not to molest any Mexicans provided they furnished information as to trails and settlements on the American side.

Near Terlingua are large zinc deposits owned by Americans, but the mines have been closed since the recent raids.

W C T U Meeting

A meeting of more than usual interest was held Friday by the members of the Woman's Christian Temperance Union at the home of Mrs. William Graves in North Dixon. Miss Thomas, a sister of Mrs. Graves, and secretary of the Civic Federation of Newport, Rhode Island, addressed the meeting upon the work for civic betterment accomplished by the federation in Newport.

Miss Thomas explained the details in the government of the city and the social conditions and told of what was being done to eliminate the bad. Especially helpful was what she told of the Child Welfare work, of the good done by instituting the play ground system, and the school gardens and the work in the schools, through specialists hired by the federation, for the instruction of the children along the lines of city government, the sanitation of the city, the keeping the streets clean, and the assistance they could be in making the city beautiful.

Miss Thomas also told of the work done for the men of the army and navy, who are stationed there, and especially for the marines, as the ships often put in for the summer at Newport and the men offer a big problem in discipline to the city. Conference with the admiral, she stated, brought about, with the aid of the city, the establishment of athletic grounds in Newport as the best solution of the problem, and the sailors and army men now both have a good outlet for excess spirits. The federation also brought to aid the employees of factories, through aiding in the establishment of clubs, the management of which is left entirely to the employees, so that they feel that the clubs are their own, and not a matter of charity. Recreation rooms had also been established in various parts of Newport for the boys. Miss Thomas gave everyone the privilege to ask questions, and much of interest resulted. The members felt it a great privilege to hear Miss Thomas in her very interesting talk.

Parcel Post Sale

The parcel post sale given Friday evening by the Ladies Social Circle of Prairieville was a very successful affair and netted the ladies a considerable sum, while at the same time furnishing a great deal of amusement for those attending. Besides the sale of the parcels, a program was given under the direction of the Lutheran church of Prairieville as assisted by a choir from the Sterling Lutheran church, and refreshments were served. The Sterling choir, consisting of a quartette each of ladies and gentlemen, furnished several delightful numbers. Parcels of all kinds from those priced at a nickel to higher priced ones were disposed of. A very novel booth, attracting the children greatly, was that presided over by a goose, which took the nickels in its bill and ducking its head, brought up a package and handed to the purchaser. Sandwiches, doughnuts and coffee were served as refreshments during the social hours after the sale, when the young people had a good time playing games.

"THE WISHING RING"

The musical production, "The Wishing Ring," given under the auspices of the Minnie Bell Rebekah lodge of this city at the Opera House May 18th and 19th was a great success, both in the genuine entertainment afforded and financially. The members of the cast were selected from Dixon's most talented adults and children. Roy D. Whitman of Chicago, the director, was ably assisted in the production by Mr. and Mrs. W. C. Kent and daughter, Marcel, and Mrs. W. H. Smith, in particular, in the music and dancing. Friday evening's performance lacked no whit of being as excellent as the first production and the opera house was again well filled with an appreciative audience, and a number of curtain calls were given the performers.

"SPARROW GRASS"

The clever cook never decides how to cook asparagus until she sees just the bunch she is to cook. If it be of the tender, long, green variety or of the plump, white kind she simply boils it carefully until it is tender and then serves it either with melted butter and pepper and salt or with a not too thick cream or drawn butter sauce. If the asparagus is of the scrawny or tough sort she cooks it more elaborately. Asparagus soup can be made of this less tender sort. Boil the asparagus, cut into small bits, until it is very tender and then rub it through a fine sieve. Heat again with the water in which it was boiled and mix with an equal quantity of hot milk. Thicken with butter and flour and season well.

Here is another dish that can be made with the less tender sort of asparagus. Cut the asparagus into two inch pieces and boil tender. There should be two cupsful of them. Beat the whites and yolks of three eggs separately and then together and add the asparagus, a tablespoonful of butter and half a cupful of milk. Cook in a double boiler until the mixture is creamy and cooked sufficiently. Turn on a hot dish.

Asparagus when it is very expensive and a big family must be served can be combined to advantage with other vegetables. It is good creamed with cauliflower broken into flowerets after it is cooked. It is also good with carrots or peas creamed.

Asparagus pudding is made in this way: Mix together a heaping cupful of tender asparagus cut into small pieces, four well beaten eggs, a tablespoonful of minced ham, two tablespoonfuls of melted butter, a tablespoonful and a half of flour and salt and pepper to taste. Add enough milk to make the consistency of thick batter and pour into a buttered mold just big enough to hold it. Cover with a cloth and plunge into boiling water. Boil for two hours, turn out and serve with beaten butter.

SETTING A PACE.

To impatient compilers of the political "Who's Who" Col. Frank O. Lowden seemed somewhat deliberate, not to say slow, in making up his mind whether or not he should get into the race for the republican nomination for governor. But having finally decided to get into it the colonel seems also to have decided to show what he can do as a pacemaker for his rivals, says the Chicago Herald.

In his speech at Ottawa last week formally opening his campaign he succinctly remarked that it is "absurd" that Illinois women may not vote for governor while voting for president, and added: "Women suffrage is an accomplished fact in Illinois, or so nearly accomplished that it is hardly worth while to discuss it. I know of no reason why the women of Illinois should not have the full suffrage."

The plain fact is that the opponents of equal suffrage lost their case when women were admitted to vote for some "political" offices. There may be a logical foundation for arguing that women should not be permitted to vote at all. Such women as Molly Elliot Seawell think there is. But when, as in Illinois, women are conceded the right to vote for mayor and president, to deny them the right to vote for sheriff and governor is not argument but obstinacy.

Colonel Lowden's declaration is the more striking for its refusal to participate in the soft pedaling on the subject engaging the republican state platform carpenters named by the recent Peoria convention. From their "tentative" planks exhibited earlier in the week one marked "Votes for Women" was conspicuous by its absence. Lowden seems less fearful. He is certainly more logical. In opening his campaign Col. Lowden is setting a pace for his republican rivals. Who will be the next to accept the plain logic of the suffrage situation.—Exchange.

ADVANCE OF WOMEN SUFFRAGE.

Boston Post: It is no longer funny or true to allege that only the rich man is groaning because of the boost in the price of gasoline. Rich men are far, very far, from constituting the gasoline class. People of moderate means are much more numerous as automobile owners than the plutocrats. Poor men's livelihoods depend very much upon the price of the motive fuel. Fishermen have been using it almost exclusively of late years. Farmers are now depending upon it both for their markets and their tractors. If the rich man can afford to pay any price for gasoline, put him outside the question altogether. There are plenty of others who cannot. There must be half a million persons in Massachusetts directly affected by the enormous inflation of gasoline cost. They grit their teeth as they remember that the price for the necessary commodity has risen about 100 per cent in a year. They will surely be interested, therefore, in the federal trade commission's report of its investigation of the gasoline industry and its habits, which will be sent to congress within a week. And they will want to know what, if anything, congress can do about it. This investigation may result in an airing only. But if it shall show that the great increase in the price of gasoline has not been warranted, it will have some effect. Even the oil combines are not insensitive to an aroused public opinion.

LOWDEN IS NOT TO BLAME.

Col. Frank L. Smith, a candidate for the republican nomination for governor, hints that Col. Lowden is a "city hall candidate." He does not mention Col. Lowden's name, but infers it, and says he is the candidate of the city hall in Chicago. Such a statement is unworthy of such a man as we had sort of supposed Col. Smith to be, for he knows better. And we are surprised that his political sense would allow him to make the mistake of making such a statement, for he should know that everybody knows better. Smith's judgment must be failing.

Colonel Lowden had been asked to be a candidate before Big Bill Thompson's radiant sun ever rose over the horizon of Chicago's political field. It is true that the city administration in Chicago is for Lowden. But that can only be construed as a gleam of intelligence on the part of the city administration and should not be held up against Col. Lowden. Lowden is the candidate of no "ring," no faction or interest. He is the candidate of the people of Illinois and they will nominate and elect him governor.

A POOR PLACE FOR ECONOMY.

Commissioner of Public Health and Safety J. D. VanBiber intends to cut down the expenses of his department by discharging the chief of police and the sergeant of police. Does this action seem to be exactly in line with the needs and best interests of public health and safety? We think not. We believe that such economy is false economy and that Dixon cannot afford to be stingy at the expense of the safety of her citizens. With the chief and sergeant gone but three policemen will be left to police a city of twelve thousand people extending over miles of territory, and with no one to direct their work, and no experienced head over them.

New York democrats are greatly puzzled over the problem of a candidate for Senator to succeed Mr. O'Gorman, but their worry is unnecessary, for the republican candidate will be elected.

If Mr. Wilson can do it, he will keep Mr. Bryan out of the St. Louis convention, although the Commoner says he will be inside the convention hall.

The only consolation we can get out of these cold, rainy evenings is that they are nice evenings to stay home and read.

CURRENT COMMENT

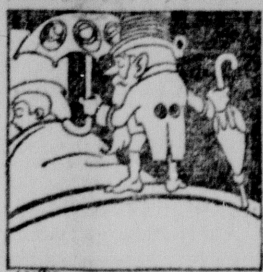

Jacksonville Courier: Unmarried men as lawbreakers outnumber married men two to one in New York city, as was to have been expected. Unmarried men as a rule are without restraint, while married men—that is, the majority of them—are held to rectitude by restraining influences that tend to keep them within bounds.

Quincy Whig: As proof of the failure of presidential preferential primaries take the results in Nebraska Tuesday. Henry Ford was named by the republican voters over Justice Hughes, while Bryan's brother, Charles, was shelved for gubernatorial honors although the Peerless one was backing him. "Watson, the old soapbox."

Havana Democrat: For two consecutive years, now, in Democratic Havana, the republicans have put it

Daddy's Bedtime

How the Dustman Tells Stories to Sleepy Children.

This He Holds Over Good Children.

[Adapted from Hans Christian Andersen.]

THE minute Jack and Evelyn stopped rustling daddy told them: "There is nobody in the whole world who can tell such wonderful stories as Ole Lukoie."

"Can he tell better stories than yours, daddy?" asked Evelyn, surprised.

Daddy smiled. "Such beautiful stories as Ole Lukoie can tell!" he said. "When night comes, as little children are sitting under the supper table as good as gold, in walks this prince of story tellers, Ole Shuteyes. Without shoes he creeps so quietly up the stairs and opens the door so softly nobody hears him. And, puff! into the children's eyes he sends a fine spray of milk so they can't keep their eyes open another minute. He never hurts them, but he steals up behind their chairs and breathes upon their necks till their heads are as heavy as lead. This is the way he makes them quiet, but the best way to keep children quiet is to put them to bed, and when all children are still as mice in bed Ole Lukoie tells them, oh, such wonderful stories!

"Then as soon as the children are fast asleep Ole Lukoie sits down on their beds. He always wears silk clothes, but what their color is I can't say, for every time he moves his garments shimmer green and red and blue. Under one arm he always carries a big umbrella with beautiful pictures on it. This he holds over good children, and all night long they dream delightful stories.

"Under his other arm he carries another umbrella with no pictures on it. This he holds over children who have been naughty during the day, and they sleep heavily till morning light comes and have no dreams at all."

Daddy stopped and thought a minute. Then he said: "Now I will tell you both about a little boy that Ole Lukoie used to love to tell stories. His name was Halmar, and once Ole Lukoie told him a story for every night in the week."

"How many stories did he tell, daddy?" cried Evelyn.

And Jack shouted, "There are seven nights in a week, sister, so Halmar must have got seven stories!"

"Oh," said Evelyn, snuggling back in daddy's arms.

"This was a very good little boy, and he could listen without fidgeting or interrupting. He kept still as a mouse while Ole Shuteyes rustled his changeable silk clothes on the edge of the bed, and if you are both good children all day tomorrow I shall try to remember what little Halmar heard when he went to bed," daddy finished.

over the democrats in city elections. How many citizens will write "The Democrat and tell why? Maybe when they try to put the reason into written words they won't be able to find any real reason."

Galesburg Republican-Register: The opinion is steadily growing that the fact that some American is on a ship that is attacked by the Germans is not of itself a sufficient cause for plunging this country into war with Germany and Austria and their allies.

Peoria Transcript: It is glorious to defend "the interests of humanity," but the particular government over which President Wilson presides also needs common-sense protection.

Clinton Journal. With an ultimatum from this country to Germany which many believe means the entrance of the United States into the war, there is considerable curiosity to know what this country could do if it did get in.

Rockford Star, Ind., Dem.: In his speech at Ottawa, Frank O. Lowden sounded his keynotes, and it would seem he had met the demand for progressive measures. He favors universal suffrage for women, he would sign a county option bill, he is in favor of continuing civil service, he is awake to the need for revenue reform and admits that a constitutional convention is one of the calls of the present. His position on the county option measure will clear up the situation to the extent of practically eliminating candidates who would run solely upon Anti-Saloon league endorsement. In fact, it would be very difficult for the league to bring out a pet candidate with such a declaration on record. His stand on the woman's suffrage question is unexpected and will help him in some quarters. As to the other issues there is nothing particularly surprising or important as no candidate could think of going before the people without assent to the needs for revenue reform. It would be a fortunate thing for both parties to get back of the tax amendment for it is not strictly a party issue. His keynote speech should strengthen him in this part of the state and give him an even stronger claim upon the republican vote at the fall primaries.

Bloomington Bulletin: Another supreme court session has decided that women may legally vote on local option question. This came up from Panama and was that of a man who was fined. He gave, however, given a new trial on the ground that he had been compelled to testify against himself. Bloomington has demonstrated that women do not shut their eyes and vote any more than do the men. They are large numbers who inquire as to facts and conditions and register accordingly. At any rate it is well to have the legal aspects fairly determined in the higher courts although the ability of women to vote intelligently is admitted and is not a point to be settled by any judicial tribunal.

Franklin County Recorder: The Democrats evidently think it will be time enough to enact a tariff law after the war has closed. They are the kind of people who close the barn door after the horse is out.

Carrollton Patriot: The indications are that the Republican party in Illinois is still alive and quite lively. No occasion to be alarmed at any of the alleged symptoms that are being exploited in the daily papers.

Graduates if you need cards you will find what you want at the Evening Telegraph office.

Minneapolis Journal: The state highway commission estimates that Minnesota will spend in the coming year the sum of \$7,453,451 on road work. These figures are only mildly encouraging. They do not show that Minnesota is making great progress in solving good road problem.

In 1914, according to the figures of the office of public roads, Minnesota spent nearly a million dollars more than it is to be spent this year—\$8,225,521, to be exact. The figures for 1915 are not yet at hand. Only 19 of the 48 states were worse off than Minnesota in 1914 for surfaced roads. Wisconsin with smaller road mileage had nearly twice our surfaced mileage. Michigan, Indiana, Illinois, California, Oregon, Washington, Kentucky, Tennessee, both Carolinas, Alabama, Florida, Georgia, were among the states that had a greater percentage of surfaced roads than Minnesota. The next largest state should give serious attention to the recommendation of the "provision he made so that the state through its proper body may designate, build and maintain its system of state roads, and the counties designate, build and maintain their system of county roads." This is sound advice. Minnesota will never make great road progress till the state builds its own roads.

Edwardsville Republican: High cost of living, high taxes and high out of sight jobs are the high-handed results of free-trade.

Centralia Review: There is rum or in the way in which Democratic editors regard the war made properly by that is now affecting sections of this country. They profess to see prosperity, but they are not sure whether the visitor is the real thing or only a phantom. That prosperity of any kind could come under Democratic administration is too much for their own credulity.

Humbolt Republican: Don't it beat thunder how President Wilson can keep us all worked up over threatened breaks with Germany?

Elgin News: Francis Bacon has been accused of writing most everything. In due time even the dictionary, Daniel, not Noah Webster's may be ascribed to this most voluminous scribe. Strange how many things a man can be accused of by history after he is dead and no longer around to defend himself and his reputation.

Sterling Standard: Clean-up week is an attempt to extend the house-keeper's house cleaning into municipal affairs and it will never work thoroughly until the women have charge of that, too.

Quincy Whig: Those farmers in northern Illinois who wrung from the Chicago milk companies an advance of \$1,500,000 for the year's supply, gave the lie to the time-worn theory that farmers are too individualistic to co-operate successfully.

Carrollton Patriot: The indications are that the Republican party in Illinois is still alive and quite lively. No occasion to be alarmed at any of the alleged symptoms that are being exploited in the daily papers.

EASY TO SWINDLE PUBLIC, U. S. GOVERNMENT SAYS

But Often Men and Women Bite on Crude Bait, According to Postal Department

Washington, D. C.—The records of the Postoffice Department, and more especially of the head of the post office inspectors, show that a large part of the American people still love to be humbugged. The inspectors marvel at the credulity of some citizens who give up their hard earned savings in one wild grab for riches.

Some of the schemes are extremely clever, while others are crude, but somebody always "falls" for them, clever schemes frequently attracting intelligent persons whose credulity is amazing.

Not long ago a bunch of postal crooks were on trial in Kansas City, charged with operating fake mining companies. They had ten or twelve different companies going at one time.

One of the witnesses was a Virginia farmer who thought he was pretty smart.

"Yes," he said to an inspector, "this company is a fake all right. I admit I was stung on its stock, but I've got right here certificates of stock in other companies that I know are all right. Their stock is increasing in value right along."

The credulous Virginian was asked to display his wares. He did so. He was horrified when informed that the men on trial were promoting all the companies in which he was a stockholder, that all were fakes and existed on paper only.

A favorite scheme of the fake stock concerns is to start the sale of their stock at 10 cents a share. After a time when the suckers begin to bite well, the price is boosted to 15 cents.

This convinces them that there is something in the company, and they buy more. The stock keeps rising to perhaps 30 cents, when an announcement is forthcoming to the effect that the company has secured all the money it requires for capitalization.

Shortly afterward funds are required for promotion and another scheme is started on its way.

Not infrequently the promoter of one fake concern will advise persons who are seeking to purchase more stock that the lists have closed, but that he has been able to purchase a block of another stock which some concern was forced to let go of and can sell it very cheap. This usually brings in the "long green."

One scheme of the Kansas City bunch was to send out in advance letters soliciting shares of a certain stock at 20 cents each. Persons receiving such letter had nibbled before of course.

After a short time another letter would come along ostensibly from an entirely different concern, offering to sell this same stock for, say 10 cents. Having a week or so before received an offer of 20 cents for this identical stock, persons receiving the second letter sent in their subscriptions, receiving in return a bunch of worthless certificates.

After the receipt of the fake certificates they would get into communication with the concern or individual offering to pay 20 cents a share for it, only to learn that all the stock desired had been secured from other persons meanwhile.

ONE SPASMODIC COUGH SOLVES DOCTOR'S CASE

Eye Tooth Embedded in Woman's Lung Fools Medics Two Years—Patient Will Recover

Hingham, Mass.—With one cough, Mrs. George W. Morse of this city, solved a mystery which has puzzled physicians, surgeons and X-ray specialists for more than two years.

For two years she has been called a consumptive and treated by physicians for pulmonary tuberculosis. She is suffered from an incessant cough. A night or two ago she was seized with her final and most successful cough fit, fit, and to her amazement, she dislodged a large eye tooth which has been embedded in her left lung for twenty-six months.

Since then, when Mrs. Morse was put under ether to have her upper teeth extracted she has been unable to sleep more than a few hours a day. Physicians attending the woman at first thought the illness was either arthritis, but later told her she was suffering with tuberculosis.

"Last night I was alone with the children," she explained, "when I was taken with a bad coughing spell, not unlike what I have experienced almost incessantly. I felt something hard in my mouth and on investigation discovered it was the eye tooth I must have swallowed."

Mrs. Morse said that while her physician declared it would be some time before the affected lung was entirely healed, he had perfect assurance of her complete recovery.

WEDDING FEES "POLITE TIPS"

So Rules Chicago Church Board, Which Tells Pastor to Accept No More

Chicago, Ill.—Wedding fees to the minister have been abolished by the Official Board of the St. Paul Methodist Episcopal Church here because they are "polite tips." The action was taken upon the recommendation of Rev. Roy L. Smith the pastor. The board directed that hereafter all fees shall be considered contributions to the church and that the pastor shall render a monthly expense account for dinners, luncheons, car fare and other things for which he spends money in connection with his official duties.

PRINCESS THEATRE

Tomorrow night the program is comprised of two two-reel features and a comedy, the first feature being a Mustang drama entitled "Two Bits" with Anna Little, Frank Borzage and Jack Richardson in the leading roles, an absorbing drama of western life and love. The other feature is a Thanhouser drama entitled "A Man of Honor" with the Fairbanks twins and George Marle in the leading roles, a love story of interest. The comedy is a Falstaff entitled "Pussy Foot Pro-tectan Player," featuring Frances Keyes.

A WORLD OF PLEASURE

PALACE MUSIC HALL, CHICAGO

The opening date of the summer season at the Palace Music Hall was Wednesday, May 17, when the New York Winter Garden, always synonymous with gorgeous scenery, catchy music, all star casts and hordes of beautiful girls, presented "A World of Pleasure," its latest musical extravaganza. The postponement of the opening date was because of the necessity of fitting the stage of the Palace Music Hall to receive and properly handle this massive production of the Winter Garden.

"A World of Pleasure" is said to be more of a spectacle than other Winter Garden productions and differs from the others which have come out from this temple of amusement in that it is not of the typical revue order. Naturally there is enough of an excuse for a plot to spread out over the twelve scenes, but these scenes are merely pictures of a glorified order intended as settings for the comedians, the singers and bevy of beautiful young girls who literally infest "A World of Pleasure." This production played at the New York Winter Garden for 21 weeks before it was sent on the road. The production will be entirely new although the same bizarre costume patterns will be used.

The complete cast includes Clifton Crawford, Conroy and LeMairs, Courtney Sisters, Collins and Hart, Franklin Batie, McMahon, Diamond and Chaplow, Venita Fitzhugh, Margaret Edwards, Helen Goff, Emily Miles, Rosie Quinn, Fay Evelyn and Eleanor Brown.

The sale of seats for "A World of Pleasure" started at the box office of the Palace Music Hall Thursday morning.

The feature of the encampment will be the grand parade which will be held Wednesday afternoon. Hundreds of school children and National Guardsmen will participate. Commander John M. Snyder, Past Commander W. G. Cochran, Past Commander Robert Mann Woods and Past W. R. C. Commander Inez J. Bender will preside at the campfires.

Many surviving members of Post No. 1, which was organized in Decatur on April 6, 1865, will be here to attend the encampment. The surviving members are Henry Corman, Colorado Springs, Col.; A. M. Lapham, Springfield, Mo.; D. A. Woodland, Arcola, Ill.; P. R. Williams, Quincy, Ill.; James F. Steele, Richard F. Jones, C. M. Imboden, W. F. Martin, F. L. Hays, N. A. Baker, Frederick Schwab, R. H. Johnson and T. J. Abel, all of Decatur, Ill.

A handsome bronze tablet will be unveiled by the Woman's Relief Corps of Illinois, only a few feet distant from the spot where Post 1 was organized.

Major Benjamin F. Stephenson of Springfield, Ill., is credited with having first conceived the plan and inaugurated the work of the G. A. R. He obtained for an assistant J. W. Routh, also of Springfield, and the two drew up a ritual. It was then found that not a single printer in Springfield had been a soldier. Upon learning that two Decatur printers, I. N. Coltrin and Joseph Prior, had served in the war, they went to Decatur and had them set the ritual into type. In return for this co-operation it was decided to found the organization in this city. The building in which the first meeting was held is yet standing in Decatur.

Following the founding of Post No. 1 at Decatur, posts were organized in nearly every city of prominence in the northern tier of states.

TWO FAITHFUL FRIENDS:

HORSESHOER AND NAG

Animal Goes Unattended for Repairs and "Scotty" Is Always Pleased to Make Them

McKinley, Tex.—"Blue Whistle" the faithful old delivery horse of the Smith Drug Company of this city who has been making the rounds of the town for twenty years past, displays almost human intelligence.

"Scotty" Forsythe, a blacksmith and horseshoer of McKinley, has been looking after the hoof-wear of this docile old animal ever since he was brought here, and because of their business relations quite a warm friendship has been cultivated between the man and the horse.

Recently the colored boy who drives the animal had occasion to pass the blacksmith shop and informed "Scotty" that "Blue Whistle's" shoes needed to be readjusted and stated he would bring the horse around next morning to have the work done. No sooner had "Scotty" opened his shop the following day, before he walked "Blue Whistle" without bridle, harness or an attendant, and nodding his head at his host, took his place in the shoeing department.

The blacksmith immediately shod him and with another nod of the head the good old animal went back home alone, where he was placed in harness for the day's deliveries.

"Blue Whistle" is a fine judge of the quality of work done on his feet, and if a nail should get too close to the nerves of the hoofs he will raise and shake his head in protest until the job is done right. Also if he should lose a shoe or a shoe become loosened he will go to the shop and have it replaced without the aid of his driver. His troubles are always carefully and promptly looked after by the horseshoer, and the ripe friendship which exists between himself and the animal is almost human.

Mrs. C. H. Eastman left today for Decatur to attend the W. R. C. convention. The other Dixon delegates will go tomorrow.

Geo. Schorr has opened a beer depot at Walton, Ill., and will take care of all orders promptly. Phone 29.

Schumm also bet \$500 even that Justice Hughes, if nominated, would be elected, provided that there is no Progressive ticket in the field.

REO

The "Gold Standard" of Sixes

RECENTLY A GROUP OF GENTLEMEN were discussing motor cars—as men so often do, since there's no topic, save baseball perhaps, that is of such general and such vital interest.

THEY WERE TALKING SIXES, pro and con, and "wondering whether" such and such Sixes were really good cars this year—in view of their past unsatisfactory records.

ONE SAID, "of all the Sixes made, there's just one you can tie to with certainly that it will live up to all expectations—because of its own and its maker's past record.

"THAT THE REO SIX—the handsomest as well as the sturdiest Six made.

"IT'S A GOLD STANDARD of Sixes."

"WE ARE ALL AGREED ON THAT, I guess," exclaimed another—"there never can be any doubt as to quality of a Reo.

"REO CARS HAVE BEEN the Gold Standard' of automobile values since there were automobiles."

HAD YOU THOUGHT OF THAT—just in that way?

IF NOT, JUST CONSIDER for a moment the tremendous significance of that fact—for it is a fact that all motorists look upon Reo as the "Gold Standard."

YOU MAY DOUBT; you may question, claims made for other cars; but you accept as a fact firmly established, that a Reo is Reo is 24-karat fine from radiator cap to tire holder.

THAT BEING THE CASE, seems as if prudence dictates only one choice for your automobile—the one Six of which you can be absolutely sure—a Reo Six.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister-in-law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."

—Mrs. E. H. BEAN, 525 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old-fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

Staats-Zeitung Attacks Teddy In Reply To His Recent Speech

(Associated Press)
Chicago, May 22.—The Illinois Staats Zeitung was attacked by Theodore Roosevelt in his speech on May 19, 1916, in Detroit, Mich., as printed in several New York City newspapers—I cannot call it a German-American newspaper—the Illinois Staats Zeitung, has been engaged in active propaganda on behalf of both German militarism and American pacifism. It applauds and advocates Germany's embarking upon a career of military strength unconditioned by any other consideration and at the same time backs the movement of the extreme pacifists to keep the United States impotent for self-defense.

"That is false." Even at the risk of being condemned to membership in the Roosevelt Anarchist Club of 1911 we must contrast the honorable ex-president of the United States.

"The Illinois Staats Zeitung never endorsed any policy that tended to keep the United States impotent for self-defense." It is a vile falsehood if the Colonel really said that the Illinois Staats Zeitung backs any movement for that purpose. We print in the American—(and Judge Landis of Chicago is our authority for calling our language the American instead of the English)—language, every Sunday the principles of the Illinois Staats Zeitung. One of the planks in that platform of principles is 'the nationalizing of the manufacture of arms and ammunition.'

"Perhaps the Colonel sees in that principle the 'move' to keep our country impotent. We don't. We see in it the move to save our taxpayers millions of graft from the greed or rapacious and dishonest ammunition sellers.

"We have repeatedly stated editorially, in both the American and German languages, that we are for preparedness and we explain what sort of preparedness we favor. If the Colonel sees a move to keep our country impotent against defense in every form of preparedness except the Roosevelt brand, then we beg to express our satisfaction at being 'with' some of his opponents rather than 'with' him. We favor the Swiss and Australian system of military service. We favor 'preparedness' in the public schools, by means of textbooks written exclusively by American-born citizens upon history and geography, by teaching more of European history and less of English history, by 'preparing' the bodies of our young people through exercises in turning and swimming; by con-

selling every public school student to learn one European language in addition to the American; by developing an American encyclopedia as our reference work in place of the Encyclopedia Britannica which hardly mentions our 'Declaration of Independence'; by nationalizing the manufacture of arms and ammunition for use of our government; by inculcating stronger love for our government by means of laws that would benefit the poorer rather than the richer classes, so-called socializing laws; by compulsory military service for each physically fit male and compulsory hospital training for each physically fit woman, each for a short period during high school and preparatory school courses; by government subsidy given to universities and colleges that will graduate officers for our army and for our navy under United States regulations and control.

"We don't know what a 'German newspaper printed in the United States looks like. We publish an American newspaper in Chicago; it is printed partly in the German and partly in the American language. We do know that we have no connection with the German government, nor with any foreign government, but that we are independent in finances as well as in politics and therefore dare to answer Mr. Roosevelt's attack in a fearless and truthful manner.

"To be sure we praise the German people for their military preparedness. Without it, there would be no Germany today. 'The proof of the pudding is in the eating of it.'

"But we do not advocate the German military system for the United States—at least not now. Were Canada inhabited by double the number of the people in the United States—(Russia possesses twice the population of Germany) and Mexico by two-thirds the population we have (France bears the ratio to Germany) and were both Canada and Mexico arming, exercising and training soldiers and marines in ever increasing proportions; then we would favor a stronger militaristic policy than Canada plus Mexico had adopted.

"If there is any 'moral treason' or any other kind of 'treason' in these doctrines then we are guilty, otherwise not. Roosevelt preaches a kind of preparedness that requires an extraordinary 'propaganda' to keep it from being forgotten by our people for they want naught of a military oligarchy. We modestly preach a sane, moderate, military preparedness and a more thorough educational and physical preparedness.

Clear, Peachy Skin

Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-checked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

REVIVES CASE 17 YEARS OLDS

Chicago Police Asked to Look for Centralia Hardware Man

Chicago, May 21.—A case nearly seventeen years old has been revived by a family by the name of Kelly, living in Centralia, Ill., who asked the Chicago chief of police to search for George K. Weston, formerly a hardware merchant in this city, whose daughter, Lillian May Weston, they said was kidnapped when she was sixteen months old.

According to the Kellys, who wrote to the chief, they found the baby in an orphanage and adopted it, naming her Fern Kelley. The girl is now 18 years old, they said, and is living with them in Centralia. The Kellys stated that in that they have been told she is the daughter of Weston, and that she had been kidnapped they are anxious to ascertain if the report that Weston is her father is true and if so, they want to find him.

The chief also has been requested to look up Irma Spahn, who disappeared from Sycamore, Ill., and whose parents live in Canton, Ill.

BOYS SENTENCED TO CLEAN TOWN

WILL ACT AS WHITE WINGS UNTIL COURT IS ASSURED OF THEIR REFORMATION

JUDGE PUTS BLAME ON PARENTS

Holds Them Responsible for Infraction Of the School Law and Discipline

Hackensack, N. J.—Under the watchful eyes of a village marshal and of many unofficial eyes, six boy incendiaries, whose ages range from 13 to 15 years were cleaning the streets of Palisades Park, having been sentenced by County Judge Seufert to act as white wings in their home borough until the court is assured of their repentance and reformation.

The boys, who for several months past have acted a little worse than traditional bad boys, a short time ago, participated in setting fire to a vacant building in Morsemere. That led to their arrest for arson. It was learned that an older boy, Joseph McCullough, who admitted having started the blaze and who had been in the reformatory at Jamesburg, had been the ringleader and guide. Judge Seufert held McCullough for a return to a reform institution, but announced his intention of trying an experiment with the boys of more tender age.

The judge in disposing of the case in court said that a large proportion of the blame should be fixed on the parents for not having watched closely enough over the activities of their children. Continuing, Judge Seufert said:

"One of the facts difficult to deal with in the case of juvenile offenders is that the children involved will play the part of heroes among their companions. In order to eliminate this heroic element it is intended to put them to work every Saturday morning for some time on the streets of Palisades Park, at cleaning crossings, picking papers, and rubbish on the roads and cleaning up around the public school building. They will be compelled to devote the whole of every Saturday morning to their tasks and will probably be in charge of some of the fiercer."

"The boys have also been prohibited from talking about or conferring with the rest of the school children concerning their experience a connection with the fire or jail, and have been impressed with the fact that a violation of any of the provisions of the probation will meet with further punishment. In addition they will be placed under the jurisdiction of Recorder Viewig, of Palisades Park, to whom they will report weekly. He will receive monthly reports from the school and the parents as to the behavior of the children."

"In regard to the position of the parents in matters of this sort, the trouble the court finds in dealing with these children's cases is that truancy is the starting point and that parents pay little or no attention to the reports that come each month from school and show on their face how many days the child was absent and how many times tardy. In some instances the parents pay little attention to whether reports are brought home or whether the child brings books home to study. The parents of each of these boys were summoned to court and personally brought before me and told in detail what their obligations are as parents and were directed to pay close attention to their children in the future."

"This case is a good illustration of the dire results of the lack of home surveillance and discipline. This is not an isolated case of truancy, but the deliberate planning and combination resulting in a gang of young miscreants not only becoming truants, but committing serious infractions of the law."

"It would be well to publish the fact that in this class of cases the court is apt to hold the parents just as responsible for the infraction of the school law and discipline as the children who commit the violation and to deal with the parents accordingly."

"It is my intention to watch with much care the working out of this penalty because of the fact that the solution of the boy question is probably the greatest problem with which the County Judge has to deal."

Judge Seufert has long manifested a kindly interest in boys and young men and is always loth to subject them to prison influences if he can punish them for their wrongdoing without sentencing them to a prison term. He always is a strict disciplinarian.

PUT HER RINGS IN OLD SHOES

Tramp Comes Along and Now Her Diamonds are Gone

Leavenworth, Kan.—After placing valuable diamond rings in an old pair of shoes for safe keeping, Mrs. C. L. Knapp forgot their hiding place and when a thinly shod tramp came along a few days ago she gave him the shoes. Since recalling that the shoes had served as a safety deposit vault, Mrs. Knapp has not seen the shoes nor the tramp.

BACKING UP PROOF

THE KIND THAT DIXON PEOPLE CANNOT DENY

Many an earnest Dixon man or woman has publicly endorsed Doan's Kidney Pills.

Week after week, month after month, you've read their statements. Would these Dixon people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Dixon man's statement leaves no room for doubt.

It must convince every kindred sufferer who reads it.

If your back aches—if your kidneys are weak—profit by Mr. Walford's experience:

W. Walford, blacksmith, Peoria Ave., Dixon, says: "The kidney secretions were irregular in passage. My back ached too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21, 1912.)

NO TROUBLE SINCE

On January 21, 1915, Mr. Walford said: "I have had no kidney trouble at all in the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

"SUCKERS" RUNNING TRUE TO FORM, STILL

Latest Pays \$5,000 for Ma-
chine to Make \$20 Bills.

Peoria, Ill., May 22.—Isaac Deutsch
and Meyer Katz of Frankfurt, are fac-
ing trial on a charge of operating a
confidence game, brought by Anton
Sorchych of Depue, Ill., who claims
Deutsch and Katz sold him a machine
to make \$20 bills, he paying them
\$5,000 for the outfit.

According to Sorchych the machine
was to be operated by placing a \$20
bill in an aperture and turning a
crank. Scores of duplicate certificates
came forth. Three thousand were
"made" in two weeks. Armed with a
shotgun he is said to have guarded
his machine for three days after the
men left. He then discovered that the
device would not work without more
bills, and brought suit.

RUSS JOIN ALLY IN MESOPOTAMIA

British Forces Joined by Slavs
in Asia Minor.

ADVANCE TOWARD BAGDAD

Islam's Capital Is Menaced by Dash of
Grand Duke's Troops — Soldiers
Reaching British Line Are Advance
Guards of Army Which Is Approach-
ing.

London, May 22.—Russian troops
have joined the British in Mesopotam-
ia and an allied drive on Bagdad is
now believed to be imminent. The
British, with their Russian comrades,
it is believed, soon will strike heavily
at the Turks in a determined effort to
wipe out the series of defeats inflicted
upon General Townshend's troops
before their final capitulation from
starvation at Kut-el-Amara.

The Russians, after a wild and ad-
venturous ride from Persia, joined
the column of General Sir G. Gor-
ringhe, which is fighting its way up
the Tigris toward Kut. This British
force, originally dispatched as a re-
lief expedition to succor the beleag-
uered army at Kut, now is the
wedge for a Russo-British campaign
against the sacred city of Islam.

Form Advance Guard.
The Russian forces which joined
colors with the British are merely the
advance guard, it is stated, of strong
commands now on their way to effect
a junction. The combined armies are
about 130 miles from Bagdad. They
are fighting on the same ground over
which Townshend advanced to Ctes-
iphon, just below Bagdad, where he
met his disastrous defeat.

British Drive Turks Back.
A further advance for General Gor-
ringhe's troops on the right bank of
the Tigris also is officially reported.

HUGE INCOME TAX FRAUDS

Attempts to Cheat Uncle Sam Out of
\$8,380,185 Frustrated.

Washington, May 22.—Attempted
frauds and invasions of the income
tax law, aggregating \$8,380,185, have
been frustrated by the treasury de-
partment, during the first nine months
of the current fiscal year.

The \$8,380,185 has been added to
the incorrect returns, assessed against
the delinquent corporations and in-
dividuals, and will be collected. What-
ever additional evasions and omis-
sions may be uncovered in returns
yet to be investigated will be similar-
ly treated.

More than 80,000 individual and
corporation returns have yet to be
examined before the total of the
amount withheld can be ascertained.

BREAKS LONG-FLIGHT RECORD

Victor Carlstrom Flies 416 Miles in
Four Hours, One Minute.

New York, May 22.—Victor Carl-
strom, in a 160-horsepower biplane,
flew from Newport News, Va., to the
Sheepshead Bay Speedway in this city
a distance of 416 miles, in four hours
and one minute. This is a record for
this distance, according to an an-
nouncement made by the Aero Club
of America.

The Aero club announced that the
best previous American cross-country
flight was 332 miles in four hours and
forty-four minutes, made in 1914 be-
tween Des Moines, Iowa, and Kent-
land, Ind.

TO HAVE FIELD KITCHENS

Germany Will Take Over Cooking for
the Whole Empire.

Amsterdam, May 22.—The German
socialist newspapers discuss the new
proposal for dealing with the food
problems, namely, that each city,
town or community through its chosen
officials shall take over the feeding
of its people, doing away entirely with
private buying and even private cook-
ing.

Under this scheme the local govern-
ments would have the right to confis-
cate all foodstuffs at fixed prices, as-
semble them at kitchens and distri-
bute them ready cooked to the people.
